

The visualization displays a network of countries, each represented by a three-letter code. The countries are grouped into five distinct clusters, each color-coded and labeled with a name. The clusters are defined by their association with a specific dimension of inequality, indicated by text labels and arrows pointing towards the clusters.

- Olive Cluster:** Includes countries like CUB, BLR, KAZ, ARE, RUS, VEN, UZB, QAT, CHN, TJK, SAU, and TKM. It is associated with the dimension "Strength of civil society (C)".
- Aqua Cluster:** Includes countries like BHR, ERI, SSD, GNC, SDN, BDI, SOM, COD, CMR, MRT, TGO, PSE, BGD, ETH, AFG, IRQ, GTM, UGA, ZWE, HTI, and GIN. It is associated with the dimension "Horizontal inequality (R)".
- Brown Cluster:** Includes countries like HUN, MDA, HRV, SRB, SGP, BIH, ROM, ISR, ARM, ALB, WSM, MUS, MNG, SYC, ARG, JAM, USA, TUN, MLT, AUS, ORY, CRI, VUT, CPV, CHI, SUR, LKA, GUY, IDN, TST, BTN, GEO, and TTM. It is associated with the dimension "Voice and accountability (R)".
- Violet Cluster:** Includes countries like KWT, SLV, IND, MAR, DOM, MEX, LCA, LKA, SUR, PAN, GHA, SEN, GMB, PNG, MNP, NGA, BFA, MLI, GNB, and GMB. It is associated with the dimension "Access to justice (C)".
- Pink Cluster:** Includes countries like NAM, PNG, MNP, NGA, BFA, MLI, GNB, and GMB. It is associated with the dimension "Gender inequality (R)".

Arrows indicate the direction of influence between clusters. For example, arrows point from the Aqua cluster towards the Olive, Brown, and Violet clusters, and from the Violet cluster towards the Pink cluster. The Grey cluster, located on the right side of the visualization, is not associated with any specific dimension of inequality.
